

Condolence Message

The staff of the ICAR - Directorate of Weed Research at Jabalpur, Madhya Pradesh are deeply aggrieved at the sad and untimely demise of Dr. APJ Abdul Kalam, former President of India. He was a role model for the scientific community and citizens of the country at large, and made monumental contributions for raising the image of India outside. He was a great visionary and left an indelible mark on the minds of the present generation, which will also inspire the future generations. His passing away has caused irreparable loss to the Nation which will be hard to fill for a long time.

The staff members of the Directorate organized a Condolence Meeting on 28.7.2015 at 4 PM and observed a 2 minute silence to pay homage to the departed soul.

May his soul rest in peace.
